

Amendments to the Drawings:

Enclosed are three (3) replacement drawing sheets including FIGS. 1 - 3 intended to replace those filed on December 5, 2004 (i.e., those filed with the application).

REMARKS

Favorable reconsideration of this application in view of the above amendments and the following remarks is respectfully requested. This Supplemental Amendment is in response to the Office Action, mailed December 1, 2004, and supplements the previous submitted Amendment, dated February 25, 2005. The Amendment, dated February 25, 2005, was re-submitted in a Response, dated March 29, 2005, in response to a Notice of Non-Compliant Amendment, mailed March 21, 2005. The Notice of Non-Compliant Amendment was sent in error as there were no amendments to the drawings submitted with the amendment document, dated February 25, 2005.

By this amendment, claims 1-3, 5, 9-11, 13, and 17 have been amended to more clearly recite the subject matter of the instant application. The Specification and the Abstract have also been amended to more clearly describe the subject matter of the instant case. Amended FIG. 1 has also been submitted. Applicants note that these changes are minor and editorially in nature. Currently, claims 1-18 are pending of which claim 1 is independent.

Amended FIG. 1 is submitted to properly identify the location of A and B, the lateral ends of the ridge. Acceptance of this amended figure is respectfully requested.

Applicants submit that all pending claims, claims 1-18, are in condition for allowance, and formal notice of such is solicited. If the Examiner has any questions, the Examiner is respectfully requested to contact the undersigned at the number listed below.

Applicants hereby petition for any extension of time that may be necessary to maintain the pendency of this application. The Commissioner is hereby authorized to charge payment of any additional fees required for the above-identified application or credit any overpayment to Deposit Account No. 05-0460.

Respectfully submitted,

Heather Morin
